Andrew Jackson Language Academy

Registration opens Tuesday, March 3rd, 2020 at jatschool.org/enrichment

Chess by Chess Scholars

Monday | Grades K-8th | \$125

Be a part of Chess Scholars this session! Each class will consist of a fun, interactive teaching period and guided practice time. Both beginner and experienced participants are welcome and will get to the next level under the guidance of an experienced Chess Scholars coach. There will also be a chess competition with prizes and a party at the end of the session! Each child will receive a participation award and a chess keychain!

Yoga by Kids Need Yoga

Tuesday | Grade K-3rd | \$165

Students will practice yoga-based movement and engage in creative play and mindful connection activities during each session. Classes focus on building self-confidence, strength, and concentration while learning the basic yoga principles of respect to self and others. Breathing exercises, creative imagery, meditation, and relaxation are introduced to give your child these important skills to carry with them into their busy school and social lives.

Happy Hands Mixed Media by Unicoi Arts

Tuesday | Grade K-3rd | \$195

Your child will explore a wide variety of subjects from rockets and robots to famous artists by learning to paint, draw, collage and sculpt. Tactile materials like clay, wax strings, oil pastels and acrylic paints will help your child enjoy learning the basic principles of art and invite them to think creatively. New projects every session!

Hands-On Engineering by Kids STEM Studio

Wednesday | Grade K-2nd | \$175

Students learn engineering with hands-on tinkering to understand and apply design and engineering concepts as they create innovative solutions to

challenges. Students design and build their own electrical gadgets, simple machines and mechanisms, bridges, rockets, boats and more, learning various engineering disciplines. Students also get to take their creations home!

Secret Agent STEM by The Laboratory – NEW!

Wednesday | Grade K-5th | \$190

Students will learn chemistry and problem-solving engineering through a fun Secret Agent theme! In every class: uncover an evil plot from our nemesis Dr. EvilMind, draw comics, invent, experience hands-on chemistry or engineering experiments, and make something to take home. Test your invisibility. Create a robotic henchman to do your bidding. Make quicksand booby traps. Discover night vision. Take on these fun STEM challenges and more!

Robot Explorers by Robot City Workshop

Thursday | Grade K-3rd | \$215

Give your student a head-start on coding and game-building principles with Robot Explorers and let their creativity run wild. In this program students work with some of the newest programmable STEM robots for children that will allow kids to learn through guided play in an exploratory and encouraging workshop environment. We emphasize pressure-free creativity with a focus on discovery and fun. RCW's STEM-based curriculum is more than just an after-school enrichment program, it is an invitation to the future of innovation and discovery.

Hip-Hop by Design Dance

Thursday | Grade K-3rd | \$150

Learn basic hip hop techniques in an energetic classroom environment! Dancers will practice choreography to upbeat music while improving upon rhythm, flexibility, coordination, and improvisation. All dance students should wear clean gym shoes and comfortable clothes that they can move in.
